

## Giant List Of 294 Blog Directories

It's another link building resource for you. There are 294 Blog Directories in this list now. Some are free and some are not, some of them have high requirements and some of them are "nofollow". This list might not be as good as the list to 1000 web directories but you can add it to your "SEO To-Do List" and it helps a lot.

If you are submitting your blog to 10 web directories everyday, submit your blog to 3 blog directories. You'll be finishing the list after 3 months. Another note for you is, "nofollow" links help you in ranking and it makes your backlinks look more natural. So, don't give up on them!
